

NEW TRAFFIC FLOW!

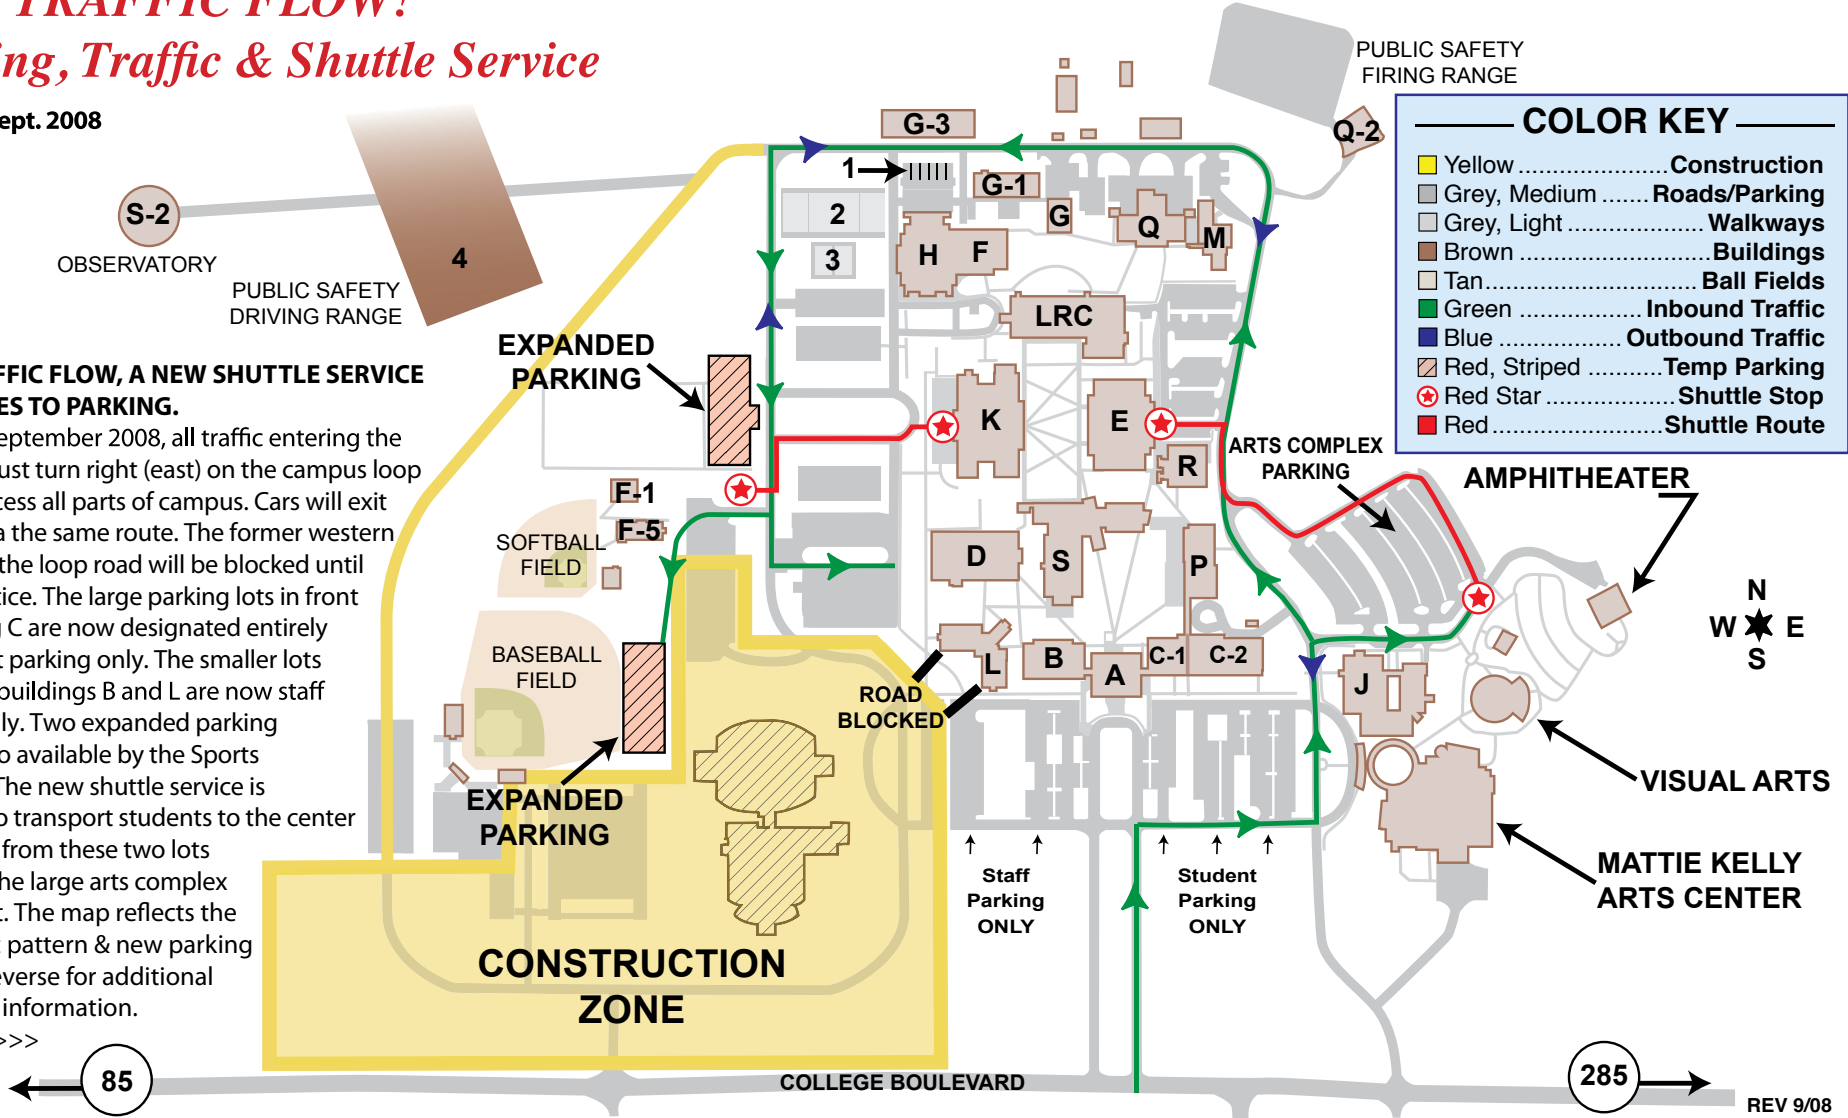

Parking, Traffic & Shuttle Service

Effective Sept. 2008

NEW TRAFFIC FLOW, A NEW SHUTTLE SERVICE & CHANGES TO PARKING.

Effective September 2008, all traffic entering the campus must turn right (east) on the campus loop road to access all parts of campus. Cars will exit campus via the same route. The former western portion of the loop road will be blocked until further notice. The large parking lots in front of building C are now designated entirely for student parking only. The smaller lots in front of buildings B and L are now staff parking only. Two expanded parking lots are also available by the Sports Complex. The new shuttle service is available to transport students to the center of campus from these two lots and from the large arts complex parking lot. The map reflects the new traffic pattern & new parking lots. See reverse for additional important information.

Parking, Traffic & Shuttle Service

Fall 2008

For the next three years, the western side of the Niceville Campus will be under construction for various projects. Traffic flow and parking will be impacted. To serve students and the public, new parking areas located by the college softball and baseball fields have been established. Additionally, a new shuttle service that will run to central campus locations and key parking lots has been instituted.

USE NEW PARKING LOTS & SHUTTLE

When at all possible, we ask that you please park in the large parking lot located at the Arts Complex on the eastern edge of campus or the new temporary lots at the ball fields and use the new shuttle service to reach your destination. Shuttles will operate every 5 to 10 minutes between these lots and Buildings “K” and “E” to get you to your destination on time and in style!

BE GREEN, BE HAPPY - USE THE SHUTTLE!

The new environmentally friendly electric shuttles can get you to your destination in comfort and style and save you a tad of gasoline! Be part of the solution – park in the Arts Complex or Baseball Complex lots and use the shuttle! Shuttles will run continuously prior to and through peak morning and afternoon class times – look for the electric shuttles and the four primary shuttle stops (indicated on map with red stars) at Buildings “K” and “E”, Arts Center parking lot, and temporary parking lots. Use the shuttles – they’re provided for you!

YOU CAN HELP!

- Be Cautious – Drive slowly and carefully through campus
- Be Courteous & Cooperative – The new traffic flow and parking affects everyone on campus, so give yourself extra time to park, use the shuttle and arrive at your destination in a safe manner.
