A Word From Our President:

Emerald Coast ASTD Members-

Our September meeting is next Tuesday, September 11 at 11:30. We are back at our usual location, OWC's Niceville Campus in the Gallery, Building K. Our focus is online training and I am the facilitator.

I'll have to admit, I've been doing online training for 8 years for the Okaloosa School District and have no technical background. I do have to write training material that is very detailed and ask questions that invite employees to apply that information in their work setting- not just spout back the facts. I have also learned that technology changes- the webmaster changes or disappears, employees can't download the very latest format. I've learned to keep it simple. My latest change and challenge is presenting material employees need to know to pass a state certification test. I promise you will leave with sample training modules that can be adapted to meet your needs.

**Special Reminder:
Leslie Yerkes will help us create places where people love to work- FUN WORKS - in October.**

Plan to be with us for both training opportunities,
Becky Spence, President
