Team Development

Talked to anyone lately who successfully tackled a highly controversial issue that was blocking the progress of an entire area?

Dawn Moliterno, President/CEO of the Walton Chamber of Commerce, assembled a team to successfully address the lack of workforce housing in Walton County. Dawn is a proven leader. We could not think of anyone more qualified to help us with ideas on team development.

Dawn presents at a number of speaking and training events throughout the country for the National Association of Chamber of Commerce Executives. She recently authored a Membership Development book published by ACCE.

Make your reservations soon.
